Mix the cards, and designate a dealer.  
(It can be one of the players)

Let the dealer put out 2 cards at a time in the middle for all the players to see. The first player to spot the match calls it out and takes the cards.

**Winning:** The player with the most cards at the end wins.

### GAME #3

**Playing:** Place all the cards face down in a pile in the center.

Designate a "dealer" (which can be one of the players). Let the dealer turn over the first 9 cards. Then at the same time, all players try to find a matching symbol on any 3 cards. The same symbol must be present on all 3 cards. When you spot a matching symbol call it out (example: "shofar!").

Take the 3 cards you have won and let the dealer replace those cards to the middle. When there are fewer than 9 cards left in the game and no more matching cards, the game ends. **Winning:** The player with the most cards wins.

### GAME #2

**Playing:** Shuffle the cards and deal one card face down to each player.

Place the remaining cards face up in the middle of the table to form a draw pile. At the same time, players flip over their card and the center card.

The first player to see his match calls it out (example: "latkes"). That player takes the center card and places it face up on top of his flipped card building a personal pile.

Now use the new top card on your personal pile to find a match with the center card.

Repeat this until no cards remain in the center.

**Winning:** The player with the most cards wins.
