Game Instructions

Object of the Game

Get four dreidels in any straight line—vertically, horizontally or even diagonally.

To Start the Game

- The players should choose who will play with the blue dreidels and who will play with the orange dreidels.
- One blue dreidel is placed on each of the blue dreidel stands and one orange dreidel is placed on each of the orange dreidel stands.
- Decide which player gets to move first and then alternate turns.

Moving the Pieces:

- Dreidels must move be in a straight line.
- Dreidels cannot jump over other dreidels.
- Dreidels can move any amount of spaces as long as it moves in a straight line.
- Only one dreidel per square. No sharing of spaces. No knocking off other dreidels from their spaces.
- All spaces, including the dreidel stand spaces, are considered as ordinary spaces and may be used by either player after the game starts.

Winning the Game:

Be the first player to get 4 dreidels in a row in any direction!
